

Test Cases.

1. Search air port by Origin and destination.
 - a. Both can be searched by Airport code, City name or country name.

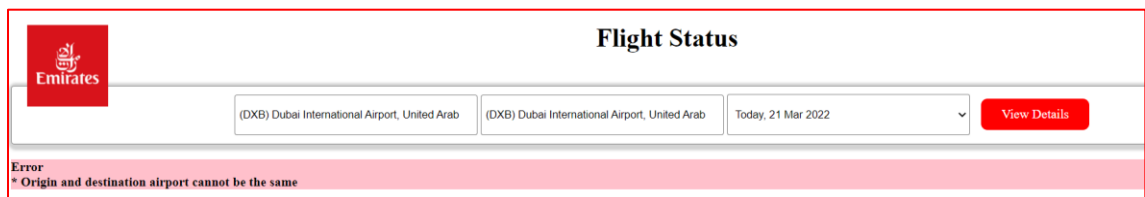

The screenshot shows the Emirates logo on the left. To its right is a search bar with two input fields. The first field contains the text 'dub' and has a blue 'x' icon to its right. The second field is labeled 'Going To'. A dropdown menu is open below the first field, displaying a list of airports with their codes and locations. The options are: (DBO) Dubbo Airport, Australia; (DBV) Dubrovnik Airport, Croatia; (DUB) Dublin Airport, Ireland; (LIR) Liberira Daniel Oduber Quirós Int Airport, Costa Rica; and (DXB) Dubai International Airport, United Arab Emirates. The last option, (DXB) Dubai International Airport, United Arab Emirates, is highlighted with a grey background.

2. Validation done on Origin and Destination airport search filters.

The screenshot shows the Emirates logo on the left and the title 'Flight Status' in the center. Below the logo is a search bar with three input fields: 'Leaving From', 'Going To', and a date field set to 'Today, 21 Mar 2022'. A red 'View Details' button is to the right of the date field. Below the search bar, a pink error message box contains the text: 'Errors', '* Please choose an origin', and '* Please choose a destination'.

The screenshot shows the Emirates logo on the left and the title 'Flight Status' in the center. Below the logo is a search bar with three input fields: '(DXB) Dubai International Airport, United Arab', '(DXB) Dubai International Airport, United Arab', and a date field set to 'Today, 21 Mar 2022'. A red 'View Details' button is to the right of the date field. Below the search bar, a pink error message box contains the text: 'Error' and '* Origin and destination airport cannot be the same'.

3. Specify Origin airport and Destination airport and search for the flight details. Each flight detail will be highlighted by legend colors based on the flight status codes.
